Philosophy

The Kentucky School for the Blind, now in its 137th year of operation, is dedicated to meeting the special needs of visually handicapped students in the Commonwealth of Kentucky. The school has served 136 students this year and anticipates continued growth.

The school is committed to educating the individual student by providing the best possible educational program for his or her growth towards self-reliance. Close communication with local school districts has aided in planning for individual needs. New areas of learning -- Optacon, cooperative vocational programs and off-campus work experiences -- are available.

This 1978-1979 yearbook is a record of the year's experiences. It is our hope that the students and staff treasure this record of activities and accomplishments.

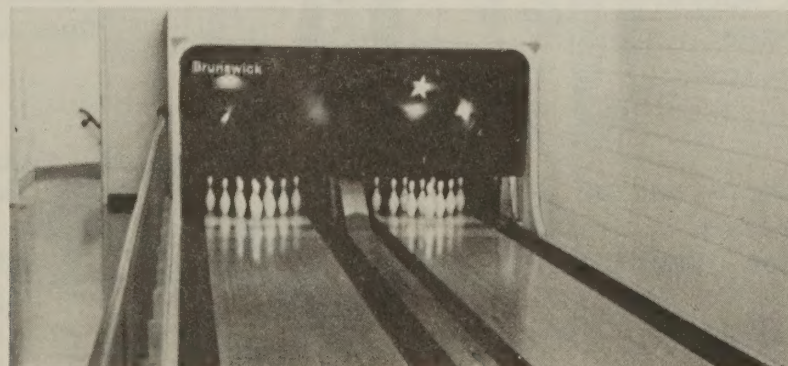

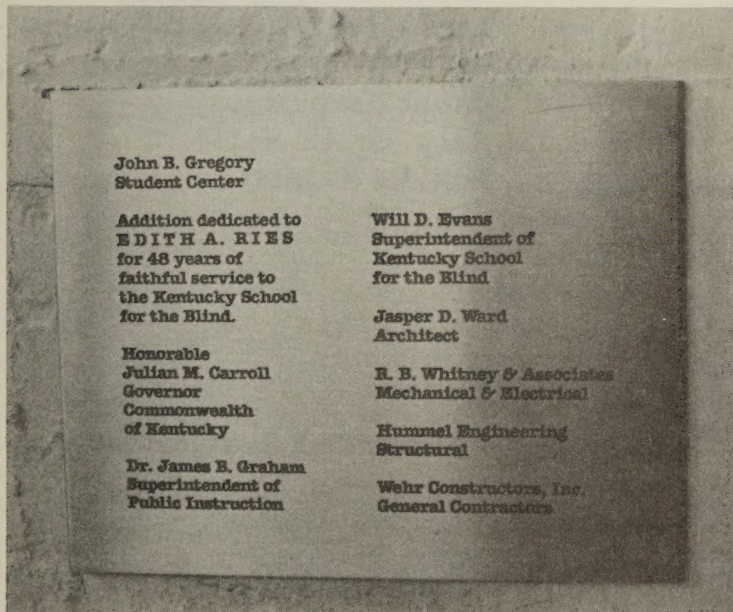

Dedication

Edith A. Ries

The 1978-1979 yearbook is dedicated to the memory of Miss Edith A. Ries who served as K.S.B.'s Business Manager for 48 years. Miss Ries died on February 25, 1979, following a long struggle with cancer.

Committed to the total education of K.S.B. students, Miss Ries recognized the need to develop good daily living and leisure time skills and athletic strengths as well as the need for vocational and academic preparation. The new recreation addition to the John B. Gregory Student Center was dedicated to her on July 9, 1978.

The quality of her living and the courage of her dying remain an inspiration to all who knew her. To her memory, we dedicate this yearbook.
